

September 14, 2021

Parents/Guardians,

In September, Saskatchewan Health Authority will be working with your school to arrange for the administration of the COVID-19 vaccine to students born in 2009 and older. Providing immunization to students is consistent with new national recommendations and endorsement by Health Canada. The COVID-19 vaccine is voluntary.

The following information package is provided for both parents and students to read and discuss before proceeding with immunization. Your child's school will also provide information detailing the date and location of their specific clinic.

This package includes information about the Pfizer and Moderna brands of vaccine- children are only eligible to receive these brands; and a link to after-care sheets that outlines common side effects of the vaccine; and a consent form for use as outlined:

- If your child is participating in the school-based immunization program they must be born in 2009 (i.e. will turn 12 years of age by December 31, 2021). The age criteria has been increased slightly in order to offer protection to a larger number of children. A signed consent form must accompany them to their appointment on the date of the clinic.
- Students 13 years of age or older can consent to their own immunization as they are considered to be a 'mature minor.' Written parental permission is not required; however we encourage parents to support their children in understanding this choice and reviewing the vaccine materials together.
- Eligibility is based on age, and not grade. Children born after 2009 are not yet eligible; however can obtain immunization as soon as they become eligible.

Regina Huda School students can attend a vaccine clinic at Gladys McDonald on Thursday, September 23rd. Please complete the consent form and return to the school if you would like your child to be immunized on Thursday, September 23rd. The staff at the school will take students to be immunized to Gladys McDonald on the morning of September 23rd..

Vaccine Information and After Care Sheets
